

**Los Alamos National Laboratory  
will be on campus!**

**Wednesday September 25, 2024  
Shelby Center 1103**

**4:45-5 PM: free pizza dinner**

**5-6 PM: info session**

**6-6:30 PM: talk with LANL staff**

**Resumes accepted any time!**

LANL is the senior laboratory in the Department of Energy (DOE) system, executing work in all of DOE's missions: national security, science, energy, and environmental management. LANL is also one of the National Nuclear Security Administration's design laboratories responsible for the safety and reliability of the nuclear explosives package in nuclear weapons. It possesses unique capabilities in neutron scattering, enhanced surveillance, radiography, and plutonium science and engineering. LANL is operated by Triad National Security, LLC, and located in Los Alamos, New Mexico.

**For all interested Junior, Seniors, Masters, and Ph.D. students in STEM (science, technology, engineering, math)**

Positions open for internships and full-time employment, bring your resume!
